# This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

# INTRODUCTION

---

HILL DIRECTORY CO., publishers of the Raleigh City Directory, present to subscribers and the general public, this, the 1929 edition of the Raleigh Directory.

Confidence in the growth of Raleigh's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Raleigh to the world.

The enviable place occupied by HILL'S directories in offices, stores, libraries and homes, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Raleigh Directory will fulfill its mission as a source of authentic information pertaining to the city.

## Four Major Departments

The several essential departments are arranged in the following order:—

**THE BUYERS' GUIDE**, pages 25 to 76, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Raleigh. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Raleigh, the necessity of having this kind of information immediately available, is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

**THE ALPHABETICAL LIST OF NAMES** of residents, business firms and corporations is included in pages 77 to 544. Features of this section are the inclusion of the wife's name in parentheses following that of the husband, and the identification of colored persons with "(c)."

**THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE**, covers pages 545 to 655. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

**THE CLASSIFIED BUSINESS DIRECTORY** is included in pages 657 to 732. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the

common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

### **Municipal Publicity**

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Raleigh, for business men, everywhere, realize that the city directory represents a community as it really is.

### **The Raleigh Directory Library**

Through the courtesy of the publishers of the Raleigh City Directory, a Directory Library is maintained in the offices of the Raleigh Chamber of Commerce, for free reference by the general public. This is one of the 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO.,  
Publishers.

# RALEIGH

"THE PROGRESSIVE CAPITAL OF A  
PROGRESSIVE STATE"

## Statistical Review

Form of Government—Commission.

Population—40,000, local estimate. 67% white.

Area—7 square miles.

Altitude—390 feet.

Parks—13 acres.

Assessed Valuation—\$52,810,070, with \$1.15 tax rate.

Financial—8 banks and 2 trust companies, with total resources of \$26,000,000, and clearings of \$133,279,696 annually (last report).

Post-Office Receipts—\$463,028.84 (last annual report).

Telephones in Service—8,510.

Churches—47, all denominations.

Building and Construction—Value of building permits, \$3,437,583 (1928).

Industry—48 establishments employing 1,791 workers, paying wages of \$1,904,208 annually, and having products valued at \$8,728,537 annually (last report).

Principal Products—Cotton goods, underwear, cotton oil, structural iron, fertilizers, school supplies, books, chemical products, building materials, monuments, candy and printing products.

Newspapers—2 dailies.

Hotels—7 first-class, with total of 935 rooms.

Railroads—3: Seaboard Air Line, Southern and Norfolk-Southern.

Amusements—Largest auditorium seats 4,000 persons. There are 5 theatres.

Hospitals—3, ample accommodations.

Education—North Carolina State College of Agriculture & Engineering, Meredith College, St. Mary's School for Girls and Peace Institute. 17 public schools, with enrollment of 8,000 pupils.

Volumes in Libraries—66,000.

City Statistics—Total street mileage, 90, with 75 miles paved.

The city of Raleigh, capital of the state, is the heart of North Carolina progress. It is a commercial and educational center. Its growth and progress during the past few years has been rapid and substantial. Aside from its great advantages as a commercial and distributing center, which is responsible for its rapidly increased development, it is a city that abounds in historical traditions and is the pride of North Carolina. The estimated population is 40,000.

**Capitol Building**

### **The Capital City**

The city of Raleigh, capital of the state, is the heart of North Carolina progress. It is a commercial and educational center. Its growth and progress during the past few years has been rapid and substantial. Aside from its great advantages as a commercial and distributing center, which is responsible for its rapidly increased development, it is a city that abounds in historical traditions and is the pride of North Carolina. The estimated population is 40,000.

At no capital in the country are there more buildings or institutions connected with the state government than in Raleigh. These include the Capitol, which was built in 1840, of granite from a quarry that was owned by the state, considered by architects to be one of the most perfect pieces of architecture in the country, the Administration Building, Agricultural Building, Hall of History, State Museum, State Departments Building, State Office Building, State Highway Commission Building, Governor's Mansion, State Prison, State Hospital for the Insane, State School for the White Blind, State School for Colored Deaf Mutes, State Laboratory of Hygiene, State Confederate Soldiers' Home, North Carolina State College of Agriculture and Engineering, State Poultry Farm, State Experimental Farm and State Fair Grounds.

### **Parks, Playgrounds, Libraries, Hotels and Theatres**

There are thirteen public park and playground areas. The Capitol Square is situated in the center of Raleigh, four streets running north, south, east and west from it, named for the earlier capitals of the state. There are ninety miles of streets, 75 miles of which are paved and all others improved.

Raleigh has two public libraries containing over 66,000 volumes; three hospitals, forty-seven churches of all denominations, a Y. M. C. A., costing \$85,000, equipped with gymnasium, swimming pool, library and other departments of interest to its members, and a well-organized Y. W. C. A. The Olivia Raney Library was a gift to the city by R. B.

Raney, as a memorial to his wife. It is well equipped with both an adult and a children's department, and contains 20,000 volumes. It is free to all white residents of Raleigh township.

There are three theatres, two movies, and a city auditorium with seating capacity of 4,000. There are two public swimming pools, several swimming clubs, and a country club with an eighteen-hole golf course.

Sir Walter Hotel

Raleigh has 935 hotel rooms: Sir Walter, 350; Carolina, 226; Bland, 110; Raleigh, 105; Mansion Park, 120; Wiley, 50; Giersch, 38.

The value of building permits for 1920 were \$862,322, and for 1928, \$3,437,583. Raleigh has eight banks. The bank clearances in 1928 were \$133,279,696.77.

Raleigh has full motorized fire department. The city ranks first-class as to insurance rates. The assessed property valuation in Raleigh is over \$52,000,000. This does not include any state property, the valuation of which is several millions. The assessed property valuation of Wake County is \$96,921,396; area, 824 square miles.

#### Noted as an Educational Center

Raleigh is an educational center, having thirty schools of various classes from grammar school to university. There are seventeen public schools, with an attendance of over 8,000. The number of students in other institutions is about 5,000, making a total of 13,000 students in Raleigh. There are six schools and colleges. The proportion of students in the schools of all classes is greater as compared to the whole population than any other city in the South.

North Carolina State College of Agriculture and Engineering was established in 1885. The college confers the B. S. degrees, offering practical and technical education in agriculture, horticulture, animal industry, civil engineering, mechanical engineering, electrical engineering, highway engineering, chemistry, dyeing, agricultural engineering, textile engineering, agricultural economics and business administration. It also offers practical economics and business administration and practical training in many branches of construction work.

Meredith College is the largest Baptist college for women in the state. It offers four general courses, conferring the A. B. and B. S. degrees and giving diplomas in music and art. A graduate from Meredith is accepted in Northern universities.

St. Mary's School for Girls is the largest Episcopal school for girls in the United States. The school offers preparatory work and two years' college work, giving diplomas in music, art, home economics, business and expression. It was founded in 1842.

Peace Institute, a junior school for girls, was founded in 1857. The school offers preparatory work and two years' college work, giving diplomas in music, art and all other courses. King's Business College is one of the leading business training institutions of the state. E. L. Layfield is president and owner. Hardbarger's Secretarial School is under the management of Miss Chess Hardbarger.

### Manufacturing

The number of manufacturing establishments in Raleigh is 48; wage earners, 1,791; wages paid, \$1,904,208; value of manufactured products, \$8,728,537.

Raleigh has manufacturing plants which turn out cotton goods, underwear, structural iron, cotton oil, fertilizers, school supplies, books, chemical products, building materials, monuments, candy and school desks.

There are eight printing houses, and fifty-two newspapers and periodicals are published here. The extent of the business exceeds that of any city this size in the South.

The Carolina Power & Light Company operates the street railway, and supplies light and power to all manufacturing plants. This company furnishes electricity to points between Raleigh and Roxboro, northward, Goldsboro, eastward; Durham, westward, and Fayetteville, southward. It obtains water-generated electric power from the Buckhorn Falls on the Cape Fear River, ninety-seven miles distant. It maintains here an auxiliary or reserve steam power plant. It has available 100,000 horsepower.

This company also operates the gas plants in Raleigh and Durham. The gas supply in Raleigh amounts to 800,000 cubic feet daily.

### Train Service

Raleigh is located on three railroads: Seaboard Air Line, Norfolk-Southern and Southern. These railroads extend in all directions and afford excellent facilities for the business and shopping public. There are twenty passenger trains daily and very good freight and passenger service.

### Distribution Facilities

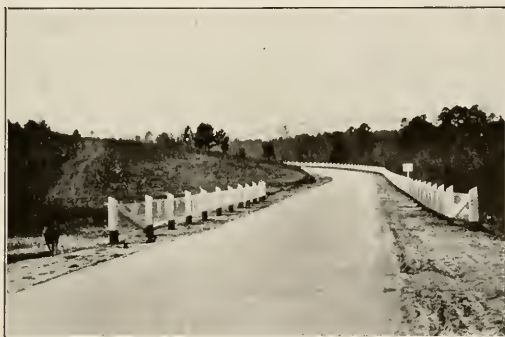

Raleigh is the distributing center for a large territory, principally eastern Carolina. In addition to three railroads radiating in all directions, there are 2,000 miles of hard-surface roads within a 100-mile radius, and a popu-

lation in this same territory of 1,802,000 (U. S. Census). Competitive freight rates between the ports of Norfolk to the north, Wilmington to the east and Charleston to the south, with local distribution freight rates comparing favorably with those of any Southern state.

Raleigh is neither east nor west in North Carolina. It stands at the cross-roads, logically situated to serve economically a wide area, with easy access to the industrial Piedmont section and to the agricultural east.

Raleigh wholesalers are now distributing adding machines, auto accessories, automobile tires, barber supplies, bread, builders' supplies, cakes, candies, canned products, cash registers, drugs, farm implements, feeds, flour, groceries, hardware, ice cream, lumber, machinery, mill supplies, meats, office furniture, office supplies, oils, optical supplies, paper, paints, plumbing and heating supplies, produce, provisions, road machinery, refrigerators, school books, tobaccos, sash and doors, and other commodities.

The platform facilities of the three railroads here will accommodate seventy-four cars. The daily number of package cars received and forwarded by the three railroads will average seventy-eight.

Interstate Highway No. 1  
North Carolina Highway Scene Leading Into Raleigh

#### Highways

Raleigh is located on Federal Interstate Highway No. 1, which is the principal highway from Maine to Florida. The Capital-to-Capital, Calhoun, LaFayette and Bankhead Highways also connect at Raleigh, the capital of the "Good Roads State." Interstate No. 1 is the great north and south tourist route, which brings a large tourist patronage to this city.

#### Agriculture

Raleigh is located in the center of a rich farming country. Here lands have doubled and, in some instances, trebled in value during the past five years. The country in this vicinity produces a great variety of crops, including corn, cotton, small grain, tobacco, sorghum, peas, and all sorts of truck, and in the County of Wake, of which Raleigh is the county seat, the corn-growing record of the United States has been broken by the production of 226 bushels on an acre, and the cotton-growing record, by the production of three and one-half bales on an acre.

**Professional Building**

The Department of Commerce figures show the value of farms in Wake County to be \$23,704,963, which is the second highest in the State. The adjoining County of Johnston stands first, with farm values at \$25,777,998.

#### **Insurance Center**

Raleigh has four insurance company home offices. These companies are the Durham Life Insurance Company, Occidental Life Insurance Company, North Carolina Home Insurance Company and Atlantic Fire Insurance Company, which have total assets of \$6,377,000.

#### **Payrolls**

Raleigh's annual payroll from four specific sources amounts to over three and one-half million dollars. The annual state payroll in Raleigh, including all employees, is \$1,698,902. This embraces employees in the state institutions in Raleigh, as well as the departments.

The Seaboard Air Line and Norfolk-Southern shops have 425 employees here. The annual payroll from this source is \$800,000.

The colleges and schools in Raleigh, led by the North Carolina College of Agriculture and Engineering, have an annual payroll to the faculties and other employees, of \$1,040,608. These figures do not include the city schools.

The Carolina Power & Light Company, which serves over seventy cities and towns in the Carolinas, with headquarters offices here, has an annual payroll in Raleigh of \$500,000.

These interesting figures show some of Raleigh's sources of income, and are an indication of the substantial development of the city. In the payroll figures for the colleges and schools there is no method of determining the large amount expended in Raleigh annually by the student population, which numbers around five thousand.

Other Raleigh payroll figures from miscellaneous sources, largely confined to the printing industry, cotton mills, automobile garages and repair shops, lumber mills and machine shops have a payroll of \$1,610,000 annually.

### Historical Raleigh

There have been two Raleighs in North Carolina; the first the "City of Raleigh," on Roanoke Island, which came into being in the spring of 1587, upon the arrival of Governor John White. Of it only old Fort Raleigh, its defense, now remains. Governor White last saw it in life August 27th, that year, when he said goodbye to his colonists and sailed for England, expecting to return soon with more settlers and more supplies. In 1591 he saw it in death, its colonists gone without a trace, and utter silence over all. Then what is now North Carolina and all the rest of North America from the Pole to the Spanish possessions was "Virginia," named fancifully by Sir Walter Raleigh, in honor of his queen, the great Elizabeth, who was unmarried and who had made him a knight. His high purpose was to found here "the British Empire in America." He lived to see that dream realized, for Jamestown in Virginia, founded in 1607, was settled under the auspices of his same company of "gentleman adventurers."

The inspiration of Sir Walter's great name persisted, and when, in 1787, the convention of the people of the state of North Carolina decreed that there should be a "fixed and unalterable seat of government," it was also decreed that it should be named in Raleigh's honor. It was a wise course to pursue, as since the establishment of the colony in 1663, there had been ten seats of government, at only three of which were there structures designed to be of a permanent character. These places were Edenton, Brunswick and Newbern, at the latter being the finest building in all North and South America; so noble that it was called the "Palace." It is small wonder that the one at the present Raleigh, built for the governors in 1814, was called the "Palace" also, until April, 1865, when the last governor to occupy it, Zebulon B. Vance, left it at the approach of the Federal Army, commanded by General William T. Sherman.

The city of Raleigh, in the County of Wake, was born like the hero in mythology, full-armed; that is to say, its site was purchased with the public funds, its location having been determined by the State Convention, under the order of which the General Assembly, or Legislature, acted. Its streets were named by the Convention and the special commissioners named by the General Assembly; not named in a casual way, but in honor of notable men and for the eight superior court districts. In like manner, the public squares were for men to whom the state was deeply indebted for its independence and other matters.

So it is that the Raleigh of today, established, bought and paid for March 30, 1792, is the consummation of a well-laid and definite plan. When President Washington reached Newbern in his tour through North Carolina in the spring of 1791, he set down in his diary that he was about 150 miles eastward of the place where the permanent capital was to be, on a site bought with public funds, as Washington, in the District of Columbia, was to be. The plan pleased and impressed him greatly. Perhaps he may have played no small part in the idea, as he did in the case of the present national capital.

Raleigh, like Washington City, made a small beginning. Washington was called for many years the "City of Mag-

nificent Distances." It was tiny, the Capitol and the President's house were but poor structures; its streets were mud in wet weather and dust in dry weather. So Raleigh had its flimsy and uncouth capitol building begun in 1793, and finished so it would be occupied in November, 1794.

Fires several times did damage to private property in Raleigh, one consuming a tenth of the buildings; another destroying the first capitol. The smallness of Raleigh persisted until several years after the Civil War. The first modern building after the State Capitol was finished in 1840, was the Post Office and Federal Court Building, in 1888. Really not until after 1900 did the city's aspect change much. It was largely a residential town. The building of the present Capitol did not lead to other permanent architecture of importance, nor did the erection of the second state building, the Asylum for the Insane, in 1853-57, or the State School for the Blind and Deaf, in 1847.

Commercial National Bank

### Raleigh's Substantial Growth

In 1907 the completion of the Masonic Temple marked the coming of fireproof buildings, and then came 1911-15, with the third state building, for the State Library, Supreme Court and Historical Commission; the Citizens, Commercial and Raleigh Banking and Trust Buildings, and the City Auditorium. In fact, most persons, asked when Raleigh really began to grow, reply "when it built the Auditorium." The latter fixed it as the convention city of the state, for all the greater public gatherings.

Raleigh's first school was St. Mary's, built prior to 1840. Thirty years later came Peace Institute, and then about 1900, Meredith College, in the way of white institutions, while the negro ones, Shaw and St. Augustine's, date from 1867. Not until about 1890 did the State Agricultural and

Mechanical College come into being. The State Prison was begun in 1869 and finished a number of years later. The Soldiers' Home, with buildings of wood, was occupied in 1891. In 1876, after a notable celebration of the 4th of July, the old "Palace" of the governors, long unoccupied, was secured for the first graded school. Some 20 years later the first high school was established in a building on the site of the "Palace."

The end of the World War gave another impetus, like that of 1911-15, and then came what may be termed the greater Hospital for the Insane and Epileptics, the School for the Blind, the Agricultural Building, The Agricultural and Engineering College, the Odd Fellows Building, the new Meredith College and public schools, modern and fireproof; a million dollar hotel, the Sir Walter; the Professional Building, Carolina Hotel, the new Raleigh Banking & Trust Co. Building; Capital Club, a new 12-story office building, and such other structures along all lines as had been undreamed of, a great extension of area, the proper paving of the streets, and the advent of the most wonderful highway system in the south.

Odd Fellows' Building

### Progressive Capital City

Raleigh awoke New Year's Day, 1925, to find itself no longer a town, but a city; a place with a dual responsibility; to its citizens, but even more to North Carolina, which had conceived the great plan for it, bought the "unalterable site" and nobly laid out the place, the only one in all America thus established.

In a county named in almost the last days of royal government, for a lady of the family of the next to the last royal governor; in almost the precise geographical center of the state, and near its present population center; in the

region where the lower Piedmont and the Coastal Plain adjoin, its planning was at once noble and practical, while its growth has been in recent years so excellent as to show the wisdom of the forefathers of 1792, in laying it out with wide streets and large public squares.

All the romance of the first city of Raleigh, 1587, lingers in the present one. It is at the crossing of the roads, north to south and east to west, as it has been for nearly 150 years. Many of the state's greatest highways lead to it.

It is midway between New York and Florida.

At no other capital in all the United States are there so many state institutions. The construction of public buildings, federal, state, county and city, as well as business houses, churches, schools, and homes has been well conceived and admirably carried out.

#### **The Raleigh Chamber of Commerce**

The Raleigh Chamber of Commerce functions most efficiently, having a membership devoted to the cause of community advancement in all that bears on the essential progress of the city. A spirit of unity prevails that is inspiring in its application to civic problems. Thus, economic, industrial, mercantile, municipal and social questions receive the consideration each deserves. Through the Chamber, the aggressive and optimistic citizen speaks, and he has an audience quite in sympathy with the loyal attitude he assumes. Every worthy enterprise is fostered. Heads of industries seeking a location are invited to correspond with the secretary.

# St. Mary's School and Junior College

Raleigh, North Carolina

REV. WARREN W. WAY, A. M., D. D., Rector

---

Owned by the Episcopal Church of North and South Carolina  
Founded in 1842 by Rev. Aldert Smedes, D. D.

---

Eighty-Eighth Annual Session  
September 17, 1929—June 3, 1930

---

Saint Mary's School offers for girls and young women a high school course of the highest standard, supplemented by two years of grade A college work, all fully accredited by the Southern Association. Special courses are given in Business, Music, Art, Home Economics and Expression, in which certificates are issued. Two hundred boarding students can be accommodated.

A limited number of day students, residents of Raleigh, are accepted annually, to whom all the advantages offered by Saint Mary's are available. The tuition charge for day pupils in the Academic or Business Departments is one hundred and twenty-five dollars for the session.

At Saint Mary's the discipline is intimate but firm, with home-like influences rather than college freedom. The design is to have parents feel that they have a safe, intellectual and inspiring environment for their daughters which will advance them along the right lines into the best type of modern womanhood.

Saint Mary's aims to promote sound physical development, to preserve good health, to cultivate a refined Christian womanhood, and to maintain the best standards of scholarship.

RALEIGH HOUSEHOLDERS' DIRECTORY (1929)

545

## HILL'S RALEIGH

Directory of Householders, Office  
Buildings and Business Places

INCLUDING

A Complete Street and Avenue Guide  
1929

Copyright, 1929, by Hill Directory Co., Inc.

In the following list the streets are arranged in alphabetical order, the numerically named streets follow immediately the named streets in numerical order without regard to geographical location, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupant or householder. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession, business, etc., of individuals and firms are only given at their respective place of business; to find occupation of householders, refer to Alphabetical List of Names.

(c) denotes colored.

\*\*\* designates no houses between intersections where it appears.

# Power of Advertising

The City Directory is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.
